SUMMARY

Detail-oriented and motivated MBA graduate in Business Analytics with a solid foundation in manual testing and hands-on experience in tools such as SQL, Python, and MS Excel. Trained and certified by QSpiders, with practical knowledge of software testing methodologies, test case design, bug tracking, and defect reporting. Demonstrated ability to identify, document, and troubleshoot issues effectively. Seeking an entry-level Manual Tester position to contribute to high-quality software releases in a collaborative, agile, and quality-driven environment, while continuously enhancing my skills in software QA processes.
