2018	SSC Vishwashanti High School8.5

PROJECTS

Tweet Base Bot detection using Machine Learning
In Twitter bot detection tasks Random Forest Algorithm is known for achieving higher accuracy than other popular algorithms such as KNN, Decision Tree,and Gaussian Naive Bayes.

Estimation of Software Development Cost and Effort using Machine Learning
In Estimation of Software Development Cost and effort we have used algorithms like SVM (Support Vector Machine), Logistic Regression, Random Forest.

Banking & ATM process with C language
Dedicated and detail oriented software developer with a strong foundation in C programming and a passion for building efficient and user friendly applications seeking a challenge position in software development where I can liberate my skills in coding problem solving and system design to contribute to innovative projects.

Profile page using HTML CSS
Developed a responsive profile page using HTML and CSS, focusing on clean UI/UX. Features include a card-style profile section, circular image, "About Me" section, and interactive navigation buttons. Demonstrated front-end development skills with semantic markup, Flexbox, and an accessible, visually appealing layout adaptable to various screen size

CERTIFICATIONS

Completed One Workshop in IIT Hyderabad for Ethical Hacking.Have completed doing mini Projects in BTecj for Project Expo
