EXPERIENCE

Nagarro, Hyderabad — Associate Staff Engineer

Feb 2025 - PRESENT

Working on the client project called DU based on Dubai, it's a telecom project that provides SIM, eSIM, Plans, Handsets to the users.

- Working on the feature called Pre to Post without SIM delivery is a feature that delivers the eSIM to users without Physical sim.

Funding Societies | Modalku Group, Singapore — Software Engineer 2

Nov 2022 - Feb 2025

The Elevate for Business has made a significant impact in Asian countries currently in Singapore & Indonesia by empowering small and medium-sized businesses to drive economic growth. Expanding its wings to fellow countries.

- Tailored payments process that takes less effort to the user by integrating Stripe that makes the Card to account transfer.
- By developing Cross Border payments with various categories involved, it boosts the platform usage by 3x.
- I worked on various features including Promo Code, Global Payees, T+1 settlement and 3DS authentication has built trust towards the platform.
- I worked on design system concepts to ensure the code reusability, faster development instead of repetition.
- Continuous testing with Jest makes the features less buggy, and ensures performance by the optimization metrics provided by React native.

Vedantu Innovations, Bangalore— Software Engineer 1

Aug 2020 - Oct 2022

Vedantu is an education app offering CBSE-standard content for grades I-XII and JEE LIVE courses taught by India's top educators.

- I worked on Live & Upcoming classes for students that ensure smooth delivery with interactions, and add to the calendar.
- Integrated Youtube like a media player for recorded classes that have a cache mechanism to give fast access to students.
- I worked on the Doubt Solving App, enabling teachers to review and respond to student-posted doubts within a set timeframe in real time.
- Tech stack used: React Native, Redux, Socket.IO, Jest, Amplitude, Jenkins

INTERNSHIPS

Vedantu Innovations, Bangalore— Software Engineer Intern

Dec 2019 - Jul 2020

I worked on real-time projects involving component integration and feature development using React Native and React JS, gaining expertise in architecture, component implementation, and the core fundamentals of React.
