## SUMMARY

Flutter Developer | Mobile App Development Specialist

With 3.3 years of hands-on experience as a Flutter Developer, I specialize in building high-performance, visually appealing mobile applications for both iOS and Android platforms. I am passionate about delivering seamless user experiences by writing clean, maintainable code and leveraging my expertise in the Flutter framework, state management techniques, and API integration.

## EXPERIENCE

Position: Junior Flutter Developer

Company: TautMore Learning Pvt Ltd

📅 02/2024 - Present    📍 Hyderabad

A company specializing in EdTech

- Developed and deployed the TautMore Edison application, an integrated platform for schools to efficiently manage student records, teacher data, parent communications, attendance tracking, payment receipts, and library management.
- Delivered the app on both Google Play Store and Apple App Store, ensuring compatibility with Android and iOS platforms.
- Designed intuitive user interfaces (UI) with a strong focus on user experience (UX) principles to ensure seamless navigation and user satisfaction.
- Integrated Restful APIs to facilitate seamless data communication between the app's front-end and back-end services, enhancing app functionality and performance.
- Implemented Firebase push notifications to enable real-time alerts and user engagement, improving app interactivity and user retention.
- Utilized state management techniques such as Provider, Gex, Bloc to efficiently manage complex app states, ensuring smooth data flow and state consistency across the application.

Position: Junior Flutter Developer

Company: CJ Software Solutions

📅 12/2021 - 02/2024    📍 Hyderabad

A company specializing in IT services and consulting

- Proficient in Flutter framework for cross-platform mobile development and skilled in using Dart programming language to build robust, high-performance mobile applications.
- Experienced in using Firebase for authentication and implementing real-time databases to enable secure user logins and real-time data synchronization within mobile applications.
- Developed the Shramik Sandhan application, a platform for booking laborers and contractors, streamlining the process of hiring skilled workers for various construction and labor-related tasks.
- Developed the Attendance Tracker application to efficiently track worker attendance and salary management, automating data entry and reporting for enhanced operational efficiency.
- Developed the CJ Software Solutions company website using Flutter for a seamless, responsive, and cross-platform user experience across web and mobile devices.

## STRENGTHS

### Technical Skills

Hands-on experience in building high-performance mobile applications using Flutter and Dart

### Technical Skills

Strong problem-solving skills and ability to troubleshoot complex issues

## KEY ACHIEVEMENTS

### Key Achievements

Created the image\_dot\_indicator package and successfully deployed it in Pub Dev. Also established CI/CD pipelines for seamless development

### Key Achievements

Refactored code to improve structure, readability, maintainability, and efficiency

## SKILLS

Android Studio

CSS

Dart

Flutter

GitHub

HTML

JIRA

Postman

Visual Studio

WebSockets

Xcode

BitBucket

Getx

Bloc

Provider

Publishing Android/Ios

API integration

UI/UX design

MVC/MVVM Architecture

CI/CD integration

Firebase

Push notifications

Integrating third party libraries

## EDUCATION

---

Bachelor of Technology

**Rajiv Gandhi University of Knowledge Technologies**

📅 06/2017 - 09/2021 📍 Basar

---

Pre-University Course in MPC

**Rajiv Gandhi University of Knowledge Technologies**

📅 06/2014 - 06/2016 📍 Basar

---

Secondary School Certificate

**Zphs Pullur**

📅 05/2014 - 05/2014
