OBJECTIVE

As a graduate in Computer Science with a strong academic background, I am eager to apply my skills and knowledge in a professional setting. Motivated and hardworking, I am passionate about continuous learning and making meaningful contributions to the industry. My goal is to gain practical experience and further enhance my expertise in the field.

PROJECTS

USER CENTRIC CYBER SECURITY

A strategic approach that prioritizes users in the design and implementation of cybersecurity measures. It focuses on improving security awareness, simplifying user interaction with security tools, and reducing human error to build a stronger, more resilient defense system.

Deep CNN Model for EV Energy Prediction

Developed a deep convolutional neural network (CNN) to accurately predict electric vehicle (EV) energy consumption. The model supports optimization of charging schedules, enhancing energy efficiency and minimizing operational costs.

EXPERIENCE

Intern at KAUSHIK LOGISTICS

February 2024 - May 2024
During this period of program I have learned to manage data, basic operations and also organize data in MS Excel as an internship.
