Work Experience

2021 - Present

ICICI BANK LTD

Designation: Deputy Manager II

Project 1: iView | Agile |

Tools: Tableau, Power BI, Jira, MS Visio, Balsamiq.

Technology: Oracle, Python, SAS, SQL

Project description:

The objective of this project is to design and implement a secure, user-friendly software application that enables employees to efficiently view and manage customer financial details.

It aims to streamline access to critical customer financial information, allowing employees to provide more informed and timely support to customers.

Role: BA

Responsibilities

- Interacted with the stakeholders and gathered requirements by using various elicitation techniques.
- Created user stories with appropriate acceptance criteria with the assistance of the Product Owner. Added user stories into product backlog using the JIRA tool.
- Prioritized and validated the requirements using Moscow and FURPS technique, added user stories to sprint backlog based on prioritization order.
- Collaborated with Product Owner and Scrum Master for BV and CP. and assisted the Product Owner for the creation of DOR and DOD checklist.
- Participated in sprint ceremonies to remove road blocks in the project.
- Generated Sprint, Product Burn down/Burn up charts to track the project progress.
- Participated in product planning and UAT to successfully deliver each sprint component.
- Current Account opening offering credit services.

Project 2: iCRM – I Waterfall I

Tools: Tableau, Looker, Domo, Google Sheets, Axure.

Technology: MongoDB, Python, Snowflake.

Project description:

The objective of the iCRM application is to create a centralized, intuitive platform that empowers employees to access all relevant client information and interactions.

This platform will consolidate documents, meeting notes (MOM), and product history availed by clients, providing employees with comprehensive insights into each client's journey and current engagements.

Role: BA

Responsibilities

- Conducted Enterprise Analysis and under the assistance of a senior BA in creating a Business Case Document, conducted Stakeholder Analysis, and prepared RACI Matrix.
- Gathered requirements from business heads using Elicitation Techniques and created a Business Requirements Document (BRD).
- Translated BRD into Functional Requirements Document (FRD), Collaborated with the technical team, and prepared SRS Document.
- Created UML diagrams and wireframes to visually represent requirements using MS Visio, Balsamic, and Axure.
- Created and maintained RTM throughout the project.
- Assisted in Testing Team by preparing Test Case Scenarios and ensured the UAT was successful.
- Signature addition and KYC documentation.
