[Rishabh Software](#) | 02/2024-Present

Market Research Analyst

Project Name: DOOH Aggregator Platform | Agile |

Technology: ReactJS

Tools: JIRA, Confluence, MS Excel, Draw.io

Project Description:

The DOOH (Digital Out-of-Home) Aggregator Platform enables media buyers to access, book, and manage advertising slots across various outdoor digital screens in real-time. The platform streamlines ad campaign planning, inventory discovery, and performance analytics, connecting advertisers with multiple DOOH providers on a unified interface.

Role: BA

Responsibilities:

- Conducted **requirement gathering sessions** with stakeholders to understand business goals and **documented functional specifications**.
- Created **user stories, acceptance criteria, and process flows** to **support development teams in Agile sprints**.
- Collaborated with **UI/UX teams** to ensure the designs aligned with business needs and end-user expectations.
- Performed **UAT coordination** and facilitated client demos to gather feedback and **ensure alignment** with requirements

- **Supported QA team in test case reviews** and defect triage activities.
- Assisted the **product manager with backlog grooming** and release planning.

Buckstox Digital Pvt. Ltd. | 05, 2021-01, 2024

Business Research Analyst (05, 2022-01, 2024)

Project Name: Street Food Tourism Platform | Waterfall |

Technology: HTML5

Tools: MS Visio, MS Word, Excel, Outlook

Project Description:

The project aimed to tap into the growing trend of food tourism by building a digital platform that showcases the vibrant and diverse street food scene in the UK. Focused on enhancing the visibility and appeal of local street food markets, the solution was designed to attract both domestic and international tourists, promote cultural exchange, and contribute to local economic development.

Roles: BA

Responsibilities:

- **Gathered and documented complete business requirements** upfront from internal stakeholders and street food vendors.
- **Prepared detailed Business Requirement Document (BRD) and Functional Specification Document (FSD)** with structured process flows and screen mock-ups.
- Participated in requirement **sign-off meetings with business and tech teams** to finalize project scope before development.
- Coordinated with the **testing team** to create test case scenarios based on fixed requirements and supported in **validating deliverables against specifications**.
- Supported **product catalog content population** before handover.
- Arranged **vendor interviews and compiled market research data** on food tourism trends.

Business Analyst Intern (05, 2021-05, 2022)

Internship Experience

- Assisted the **lead BA in gathering initial business requirements** from HR and Admin teams.
- Helped document **use cases, process flows, and user scenarios** under supervision.
- Supported the **preparation of BRD and maintained change request** logs throughout the requirement lifecycle.
- Coordinated with developers to **clarify basic queries** during the development phase.
- Created **Excel trackers for tracking** form submissions and hardware request statuses.
- Participated in **user training sessions and compiled feedback** for post-deployment improvements.
