Work Experience

LearningMate Solution Andheri East , Mumbai

(December 2023—Present)

Designation: Software Developer

Project 1: Macmillian Education Platform (Integrated Resource Center)

Project description: It is a centralized platform designed to streamline the management of organizational resources, including personnel, projects, and data. It enables efficient resource allocation, real-time tracking, and improved collaboration across departments through a unified interface.

Role: Business Analyst

Responsibilities

- Interacted with the stakeholders and gathered requirements by using various elicitation techniques.
- Created user stories with appropriate acceptance criteria with the assistance of the Product Owner. Added user stories into product backlog using the JIRA tool.
- Prioritized and validated the requirements using Moscow and FURPS technique, added user stories to sprint backlog based on prioritization order.
- Collaborated with Product Owner and Scrum Master for BV and CP. And assisted the Product Owner for the creation of DOR and DOD checklist.
- Participated in sprint ceremonies to remove road blocks in the project.
- Generated Sprint, Product Burn down/Burn up charts to track the project progress.
- Participated in product planning and UAT to successfully deliver each sprint component.
- Contributed to accessibility compliance testing by reviewing UI components and ensuring adherence to WCAG standards for inclusive user experience.

MET Bandra

(March 2023-October 2023)

Designation: Business Analyst

Project 2: GST Compliance Reporting System (Waterfall)

Project description: The system enables businesses to record transactions, generate GST returns, reconcile input and output taxes, and ensure adherence to government regulations. It provides secure data management, accurate reporting, and streamlined communication between taxpayers and administrators.

Role: Business Analyst

Responsibilities:

- Conducted Enterprise Analysis and under the assistance of a senior BA in creating a Business Case Document, conducted Stakeholder Analysis, and prepared RACI Matrix.
- Gathered requirements from business heads using Elicitation Techniques and created a Business Requirements Document (BRD).
- Translated BRD into Functional Requirements Document (FRD), Collaborated with the technical team, and prepared SRS Document.
- Created UML diagrams and wireframes to visually represent requirements using MS Visio, Balsamiq, and Axure.
- Created and maintained RTM throughout the project.
