- Proficient in **PL/SQL** programming with experience in database operations, including **query optimization** and **data manipulation**.

WORK EXPERIENCE

Rumango Software and Consulting Services Pvt. Ltd, Bengaluru, KA (May 2024 - Present)

Designation - Senior Technical Consultant

Project Name - Patchset upgradation for Flexcube v14.3.0.3 to v14.3.0.19 and OBPM from v14.5.0.1 to c14.5.0.12 for NFC Bank, Cameroon

Technology - Java, javascripts, Pl-SQL

Tools - Jira, Requirement Traceability Matrix, MS Visio, Balsamic

Project Description : NFC Bank Cameroon is upgrading Flexcube from v14.3.0.3 to v14.3.0.19 and OBPM from v14.5.0.1 to v14.5.0.12 to enhance core banking capabilities. This includes generating, testing, deploying, and implementing new patch set artifacts to improve system performance and customer satisfaction.

Role - Business Analyst

- Interacted with the **stakeholders** and **gathered requirements** by using various elicitation techniques.
- Created user stories with appropriate **acceptance criteria** with the assistance of the **Product Owner**. Added user stories into product backlog using the JIRA tool.
- Prioritized and validated the requirements using **MoSCoW** and **FURPS** technique, added user stories to sprint backlog based on prioritization order.
- Collaborated with **Product Owner** and **Scrum Master** for **BV** and **CP**. and assisted the Product Owner for the creation of **DOR** and **DOD** checklist.
- Participated in sprint ceremonies to remove road blocks in the project.
- Generated **Sprint**, **Product Burn down/Burn up** charts to track the project progress.
- Participated in product planning and **UAT** to successfully deliver each sprint component.
- ·Working with **PL/SQL** procedures, packages, functions, triggers and tables and Java EE to provide **Root Cause Analysis** (**RCA**) of the issue and implement resolution.

Oracle Financial Services Software, Pune, MH (May 2024 - Present)

Designation - Staff Consultant

Project Name - **Customization and Implementation of Oracle Banking Payments Module (OBPM) in AU Small Finance Bank**

Technology - Java, javascripts, Pl-SQL, Spring, Springboot, GIT

Tools - Jira, Requirement Traceability Matrix, MS Visio, Balsamic, UML

Project Description : Equitas Small Finance Bank was upgrading to Flexcube 11.10 version with OBPM 14.5 version which requires customization, implementation, development and testing of the functionalities.

Project Name -**Upgradation and Migration of FLEXCUBE 6.x to 11.x in Canara Bank**

Technology - Java, javascripts, Pl-SQL, Spring, Springboot, GIT

Tools - Jira, Requirement Traceability Matrix, MS Visio, Balsamic

Project Description : NFC Bank Cameroon is upgrading Flexcube from v14.3.0.3 to v14.3.0.19 and OBPM from v14.5.0.1 to v14.5.0.12 to enhance core banking capabilities. This includes generating, testing, deploying, and implementing new patch set artifacts to improve system performance and customer satisfaction.

Role - Jr. Business Analyst

- Engaged with stakeholders to **gather and analyze requirements** using various elicitation techniques.
- Developed user stories with well-defined acceptance criteria in collaboration with the **Product Owner** and managed the product backlog using **JIRA.**
- Prioritized and validated requirements using **MoSCoW** and **FURPS** methodologies, ensuring structured backlog management and sprint planning.
- Worked closely with the Product Owner and Scrum Master on Business Value (BV) and Customer Prioritization (CP) and assisted in defining the **Definition of Ready (DoR)** and **Definition of Done (DoD)** checklists.
- Generated Sprint, Product Burn-down, and Burn-up charts to monitor and report project progress effectively.
- Contributed to product planning and **User Acceptance Testing** (**UAT**) to facilitate successful sprint deliveries.
- Worked extensively with **PL/SQL (procedures, packages, functions, triggers, and tables)** and **Java EE** to perform Root Cause Analysis (**RCA**) and implement effective resolutions for system issues.
- Assisted in developing **Microservices** architecture and tested **SOAP** and **RESTful** web services for payment processing and module operations using **SoapUI** and **Postman.**

Project Name -**Upgradation and Migration of FLEXCUBE 6.x to 11.x in Canara Bank**

Technology - Java, Javascripts, Pl-SQL, Hibernate

Tools - Requirement Traceability Matrix, MS Visio, Balsamic, UML, BPM

Project Description : Canara Bank is upgrading from Flexcube v6.x to v.11.x. This includes generating, testing, deploying, and implementing new patch set artifacts along with the migration of database from older version to newer version to improve system performance and customer satisfaction.

Role - Associate Consultant

- ·Conducted **Enterprise Analysis** and under the assistance of a senior BA in creating a **Business Case Document**, conducted **Stakeholder Analysis**, and prepared **RACI Matrix**.
- ·Gathered requirements from business heads using **Elicitation Techniques** and created a **Business Requirements Document (BRD)**.
- ·Translated BRD into **Functional Requirements Document (FRD)**, Collaborated with the technical team, and prepared **SRS** Document.
- ·Created **UML** diagrams and wireframes to visually represent requirements using MS Visio, Balsamiq, and Axure.
- ·Created and maintained **RTM** throughout the project.
- ·Assisted in Testing Team by preparing Test Case Scenarios and ensured the **UAT** was successful.
- Worked upon database objects (tables, procedure, packages, triggers, and functions) for processing complex data.
- Provided **SIT** support, development, implementation, customization, debugging as well as for migration, deployment and issue resolution.
