

Sayali N. Sahare

Associate Software Developer

+91 8180074862 | sayalisahare987@gmail.com

OBJECTIVE:

"Detail-oriented and versatile software developer with 1.5 years of experience in troubleshooting and resolving issues across multiple platforms, including iPad, browsers, Windows, Mac, and iOS. Skilled in developing and optimizing software solutions while addressing platform-specific challenges. Proficient in both back-end and front-end development, with a strong focus on improving user experience and system performance. Seeking an opportunity at reputed organization to contribute my technical expertise and problem-solving abilities to deliver high-quality software and enhance platform functionality."

CAREER SUMMARY:

- Software Developer with 1.5 years of experience, practical experience in software development with a focus on building scalable and efficient applications across platforms.
- Strong technical foundation from CDAC: Gained in-depth knowledge in Data Structures, improving problem-solving skills and algorithmic thinking. Developed proficiency in Web-based Programming Languages such as HTML, CSS, JavaScript, and server-side technologies. Worked extensively with Java, C#, and .NET technologies for building robust software solutions. Mastered Object-Oriented Programming (OOP) concepts, applying them to create modular, reusable, and maintainable code.
- Participated in LITMUN, a global platform to exchange ideas and showcase technical skills. Represented my team at the Global Alumina Meet, furthering professional development through networking and learning from industry leaders.
- Hands-on experience resolving issues and optimizing software across iOS, Windows, Mac, and various web browsers.
- Skilled in debugging, performance tuning, and ensuring smooth functionality across devices.
- Agile Methodology : Actively participated in Agile development environments, contributing to sprints, stand-ups, and code reviews. Collaborated closely with cross-functional teams, ensuring timely delivery of quality software.

EDUCATION:

2018 - 2022 | Rashtrasant Tukdoji Maharaj Nagpur University

Bachelor of Technology

2023 | Center of Development in Advance Computing (CDAC) Bandra Mumbai

WORK EXPERIENCE:

Learning Mate Solutions Andheri East, Mumbai

Software Developer | 4 December, 2023 - Present

RELEVANT PROJECTS:

Project Name : Macmillian

Education

1) Google Analytics (GA4)

2) Accessibility fixes(a11y)

DOMAIN : EDTECH

Roles & Responsibilities:

- **Programming & Coding:** Wrote clean, efficient, and reusable code in [languages, e.g., Java, Python, JavaScript], implementing new features based on user requirements and functional specifications.
- **Testing & Debugging:** Conducted unit, integration, and performance testing; identified and resolved bugs, ensuring high-quality software.
- **Collaboration & Teamwork:** Worked with cross-functional teams (Product, Design, QA) in an Agile environment, participating in sprint planning, stand-ups, and code reviews to ensure project alignment.
- **Version Control & Deployment:** Managed code using Git, GitHub/Bitbucket, and supported CI/CD pipelines for efficient software deployment and versioning.
- **Documentation:** Created and maintained detailed technical documentation, including codebase, design decisions, release notes, and testing strategies.
- **Problem Solving & Issue Resolution:** Troubleshoot and resolved complex issues, optimizing performance and reliability across software applications.
- **Customer & Stakeholder Interaction:** Gathered requirements from clients and stakeholders, delivering updates and ensuring user satisfaction with the final product.
- **Security & Best Practices:** Applied security best practices, following industry standards to safeguard data and ensure scalable and maintainable software.
- **Continuous Learning & Innovation:** Kept up with emerging technologies, frameworks, and development trends, contributing to knowledge-sharing sessions and driving innovation within the team.

SKILLS:

- Operating System :- Windows family
- Programming language :- Angular Universal (SSR)
- Backend :- Dotnet C#
- API tool :- Postman
- RDBMS :- MySQL
- Other tools :- Jenkins, GitHub, Dev-OPS,

PERSONAL DETAILS:

Gender: - Female

Date of Birth: - 24/02/2001

Nationality: - Indian
