		system
		functionalities.
		b. Ensuring seamless
		transition post
		deployment.
Professional	National Sales	Sales and marketing:
Experience	Head	
		Spearheading the sales strategy and business
	Delta	development efforts, leading a team of 15
	Healthcare	professionals to expand market reach across
		medical colleges, nursing colleges and research
	February 2023	institutions.
	- Present	2. Enhancing the company's footprint across India,
		building key relationships with prestigious
		institutions.
		3. Designing and delivering customised proposals to
		meet clients' needs, leading rate of client retention.
		4. Conducting competitor analysis and utilising
		strategic marketing data to optimise lead generation
		and pipeline growth.
		Managing contract negotiations and payment
		agreements ensuring alignment with legal
		frameworks.
		Projects taken up as a Business Analyst:
		6. Spearheaded the development of three critical
		features for the company's internal panel:
		a. Timesheet and worklog interface:
		i. Designed user friendly interface for
		employees to log timesheets
		ii. Developed monitoring system for
		managers to track and comment of
		entries.
		b. Travel booking request system:
		i. Created an interface for sales
		employees to plan travel, request
		bookings, and manage trip-related
		queries.
		ii. Built a platform for the ticketing
		team to process booking requests,
		raise queries, and upload tickets.
		c. Expense Management System:
		i. Led the creation of an interface for
		employees to file expenses and
		managers to review, approve, and
		forward them.
		ii. Enabled transparency with real-time
		status tracking for employees and
		streamlined communication through
		query management.

7. Responsibilities and Achievements:

- Acted as the liaison between employees, management, and technical teams, ensuring all requirements were effectively communicated and understood.
- b. Stakeholder in the projects, actively participating in decision-making and prioritization.
- c. Conducted stakeholder interviews and gathered comprehensive requirements, documented for technical clarity.
- d. Created detailed UML diagrams, flow charts, and wireframes using Microsoft Visio and Balsamig.
- e. Employed Agile methodology to monitor progress, managing sprints and adapting to change requests.
- f. Facilitated unit testing, user acceptance testing (UAT), and ensured smooth deployments.
- g. Trained stakeholders on system usage, ensuring a seamless transition postdeployment.

8. Product Training and Transition support to clients:

- a. Successfully training clients with medical backgrounds in operating high-fidelity simulators and complex systems, such as the iSimulate Realiti 360 Pro Modular simulation ecosystem, enabling them to enhance their teaching capabilities and seamlessly integrate simulation technology into their curriculum.
- b. Developed and implemented metrics-driven training programs to ensure optimal knowledge transfer, tracking client proficiency and equipment usage effectiveness to guarantee smooth adoption and efficient operation of simulation systems.
- c. Transferred technical knowledge to healthcare professionals, improving the quality of education and clinical training using advanced medical simulation equipment.

Chief Executive Officer

Sales and Marketing:

 Spearheaded the sales strategy and business development efforts, leading a team of 5 professionals to expand market reach across medical colleges, nursing colleges and research

RESUME - CR BARATH NARAYANAN
