School	S,T. Antony Fatima high school Hyderabad.	Secondary Board.	2017-2018	7.8

PROJECTS:

- Key Settlement based and secure singularity for peer to peer cloud.

Description : The most common issues that mobile users encounter is cross-cloud data migration, which is a necessary procedure when customers switch mobile phone providers. To overcome problems like backup all the data from original cloud servers, storage problems, etc. To address this issues, we build a mutual authentication and key agreement technique based on cryptography for peer-to-peer cloud computing.

TECHINICAL SKILLS:

- Java
- SQL
- Html

SKILLS:

- Strong reading comprehension and analytical thinking.
- Basic computer literacy and typing proficiency.
- Ability to understand quickly and work in a fast-paced.
- Time management and strong communication.

Extra-curricular Activities:

- Over two years, I acted as the class representative and organizing events for our class.
- Ability to work with speed and learn quickly.
- Positive approach to work with integrity.
