Short Summary

Skilled in design, integration, and problem-solving with proficiency in Java, JavaScript, and SQL. Passionate about implementing projects and translating business needs into technical solutions, an entry-level software engineer role in a tech-driven firm.

Technologies

Languages: HTML, CSS, JavaScript, React JS, Core Java, MYSQL, PL/SQL

Technologies and Frameworks: Github, JDBC, Hibernate, Spring IOC, Spring MVC, Spring Boot

Concepts: Basic Data Structures and Algorithms (Arrays, Stacks, Queues, Linked Lists), OOP, Problem Solving

Education

Punyashlok Ahilyadevi Holkar Solapur University Solapur, Bachelor of Computer Applications (BCA) 2021 – 2024

- GPA: 8.35/10.0
- **Coursework:** Procedural Programming through 'C', Web Technologies, OOP with C++, Data Structure and Algorithm using 'C', Development of Human Skills, DBMS and RDBMS, Core Java, Advanced Java and WAP

Jath High School and Jr. College of Arts and Science Jath, Higher Secondary Education (Class XII) 2019 – 2021

- Percentage: 82.67
- **Major Stream:** PCMB

New English School Muchandi, Tal-Jath, Dist-Sangli, Secondary Education (Class X) 2018 – 2019

- Percentage: 76.00

Academic Projects

Restaurant Management System

- Developed a comprehensive Restaurant Management System to automate and streamline daily restaurant operations, including order management, inventory control, billing, and staff management.
- Designed and implemented the system architecture, ensuring scalability, security, and real-time data processing. Created a customer feedback module to improve service based on reviews and ratings.
- Increased employee productivity by simplifying the order process and reducing manual tasks.
- Domain worked: Java, MySQL, Extension Used is Tomcat 9.0 Server.

Stock Management System

- Built a full-stack Stock Market Web Application using Spring Boot, Thymeleaf, and MySQL with separate modules for Admin and User roles.
- Integrated Alpha Vantage API for real-time stock data and Razorpay API for secure wallet-based stock purchases. Implemented email-based OTP verification and custom session management without using Spring Security.

- Designed features for stock buying/selling, portfolio tracking, and admin dashboards to monitor transactions and platform fees.
- Domain worked: Spring Boot, Thymeleaf, MySQL, Java Mail Sender, Alpha Vantage API, Razorpay API. Managed session-based authentication without Spring Security and built an admin dashboard to monitor fees and transactions.

Language Proficiency Section:

English, Hindi, Kannada, Marathi

Certifications

Java FullStack Development

Sept 2024 - Mar 2025

Software Development Course in Jspiders, Rajajinagar, Bangalore.

MSCIT (Microsoft Certificate in Information Technology)

2019

JiIT Computers, Jath Tahasil, Sangli District, Maharashtra

Strengths

Good Communication, Teamwork and Collaboration, Time Management, Fast Learner
