Career Objective

Frontend developer with over 2 years of experience in building responsive, user-friendly websites and web applications. Skilled in HTML, CSS, JavaScript and Power Platforms. Seeking to leverage expertise in dynamic web solutions to contribute to a forward-thinking tech company.

Skills

- Interactive UI Development
- HTML coding experience
- Responsive web design
- JavaScript development
- Power Apps development
- Basic knowledge in Python, C, Java and SQL

Experience

08/2022 - 12/2024 **PricewaterhouseCoopers - Associate**

Project 1: Partner Development Allowance Recommendation Tool.

- Designed and developed an interactive website that recommends personalized training programs based on user interests.
- Implemented front-end technologies using HTML, CSS, and JavaScript to create a seamless user experience.
- Enhanced user engagement by implementing a responsive design and intuitive UI components.

Project 2: Greenhouse Gas (GHG) Calculator.

- Developed a web-based application to calculate carbon emissions from various sources, including gasoline, diesel, ethanol, propane, and natural gas.
- Implemented dynamic data visualization to display real-time emission calculations in an interactive format.
- Ensured regulatory compliance by incorporating industry-standard emission factors and methodologies.
- Enhanced user accessibility by implementing a responsive design.

Project 3: ArcelorMittal Poland – Emissions Data Management.

- Developed a PowerApps Canvas application that retrieves emissions data from Microsoft Dataverse.
- Automated approval workflows to streamline emissions data validation, based on assigned business units.
- Ensured data accuracy by implementing validation checks and role-based access controls.

03/2022 - 08/2022 **PricewaterhouseCoopers -Intern**

- Developed a model-driven app using Power Apps where the customers data such as purchase orders and invoices are maintained
- Used Microsoft Power Automate to generate invoices automatically

Education

06/2018-06/2022 **Anurag Group of Institutions - Hyderabad**

BTech: Computer Science

GPA: 8.75

Achievements

- Earned AZ - 900 (Microsoft Certified: Azure Fundamentals) certificate
- Earned certificate in HTML5 from University of Michigan.
- Participated in Data Science bootcamp organized by PricewaterhouseCoopers.
