Bachelor of Technology in Information Technology	CGPA: 7.35
Government Polytechnic College, Kothagudem	Jun 2019 – Jun 2022
Diploma in Civil Engineering	CGPA: 8.94
Sri Sarada Vidyalaya High School, Kothagudem	May 2019
Secondary School Certificate (SSC)	GPA:9.50

PROJECTS

Intelligent Chatbot for Food Ordering System

Developed an intelligent chatbot for a food ordering system using web technology and NLP. The chatbot understands user messages, suggests menu items, and processes orders efficiently which makes the food ordering process faster and more user-friendly through real-time conversation.

Human Activity Recognition using CNN

Built a Convolutional Neural Network (CNN) based system for detecting and classifying human activities using sensor/video input. Designed to assist in fields like healthcare, security, and fitness tracking by analyzing movement patterns and predicting behavior.

CERTIFICATIONS

- Certification of National Level Hackathon under Institution's Innovation council & Entrepreneurship development cell.
- Digital Marketing Foundations Certification from Google Digital Garage.
- Python Programming Certification from Codecademy.
- Front-End Developer Certification from the ICT Academy, part of the Capgemini's Campus to Corporate Initiative.

HOBBIES
