PROJECTS

Food Munch (sivakfoodmunch.ccbp.tech)
A responsive website that lets you browse through a wide range of food items with ease.
Built with a mobile-first approach, this website features HTML structure elements and Bootstrap components to ensure seamless navigation.
Get a clear view of the food items with product videos, available at your fingertips.
Technologies used: HTML, CSS, Bootstrap

E Commerce Website (sivaecomerce.ccbp.tech)
Developed E Commerce website where users can go through different products, detailed information about a product, offers and contact us info.
Designed page using following HTML structure elements and footer elements by using different bootstrap components to show different sections in the website and different bootstrap classes for responsiveness through mobile-first approach.
Implemented product youtube videos by using bootstrap embed and model components and displayed multiple images of offers in a carousel using bootstrap carousel.
Technologies used: HTML, CSS, Bootstrap

Photoyana (photoyana.com)

At Photoyana.com, I bring visual storytelling to life with a seamless and dynamic website designed for flexibility and ease. Powered by the versatile Blocksy theme and the intuitive Elementor plugin, our site offers an exceptional user experience tailored to your needs.

Vintagecolours (vintagecolours.in), **wellington campus**(wellingtoncampus.co)

WORK EXPERIENCE

Full Stack Developer   Oct 2024 – Now
 VAARUSH TECHNOLOGIES / India, Visakhapatnam
As a passionate Python Full Stack Developer at Vaarush Technologies, I specialize in crafting robust and scalable web applications. With a blend of front-end and back-end expertise, I bring comprehensive solutions to life, ensuring seamless user experiences and efficient system architectures.

◈ Technologies and Tools:
- Frontend: HTML, CSS, JavaScript, React.js
- Backend: Python, Django
- Database: MySQL, MongoDB
- Version Control: Git, GitHub
- Deployment: Docker, AWS

◈ Key Responsibilities:
- Designing and developing user interfaces with modern frameworks
- Building and maintaining server-side logic and databases
- Ensuring cross-platform optimization and responsiveness
- Implementing security and data protection measures
- Collaborating with cross-functional teams to deliver high-quality products

Full Stack Web Developer Intern   Sept 2022 - May 2023
OneTruWeb Software Solutions Private Limited / India, Bangalore

- Created custom WordPress themes using HTML5, CSS3, jQuery and Bootstrap
- Created and maintained web application utilizing HTML, CSS, JavaScript, and PHP
- Built RESTful services using PHP frameworks such as Laravel
- Utilized jQuery to simplify DOM manipulation, event handling, and AJAX calls
- Utilized Laravel's Blade templating engine to create dynamic, responsive, and user-friendly UI
- Utilized Laravel's Eloquent ORM to map database entities to model classes and query the database using a fluent and expressive syntax
- Implemented authentication and authorization using Laravel's built-in authentication system and role-based access control
- Managed back-end databases by writing MySQL queries to retrieve data from tables and storage

ACHIEVEMENTS

Certification in Dotnet FullStack (Sept 2023 - Aug 2024)
Magneq Software, Hyderabad
I am a .NET Developer with experience in building scalable and efficient applications using C#, ASP.NET, MVC and related technologies. I focus on delivering high-quality, user-friendly solutions, while continuously improving my skills to stay ahead of industry trends.

Nxtwave Disruptive Technologies (Jun 2023 - Ongoing)
An Aspiring MERN FullStack
CCBP Intensive is an Industry Ready Certification Program focussed on full stack web developement that provides training through an immersive hands on and reverse engineered curriculum
