PROFESSIONAL SUMMARY

- I am having 1.0 years of experience in Software Application Development using **Microsoft .Net Technologies.**
- Experience includes application development in **Asp.net Core, Entity Framework, Asp.net, C#.**
- Experience having front end technologies in **HTML, CSS, Bootstrap, JS, Angular**
- Experience in Software Development Life Cycle including analysis, design, and development.
- Good exposure on OOPs concepts.
- Good knowledge on Stored Procedures and DML, DDL operations in SQL server.

WORK EXPERIENCE

- Worked as a Software Engineer at World Fashion Exchange for one year, where I developed and optimized web applications to enhance user experience and streamline operations.

PROJECTS HANDLED

Project 1:

Project: Production Planning and Control(PPC)
Role: Design and Development
Technologies : Angular, Java Script, Asp.Net Core, C#, HTML, CSS.
Description:
This application is a module of ERP Product and This is a Own product of WFX. This application is designed to Plan andcontrol the production process of an manufacturing unit. This application is mainly designed for fashion (garment manufacturing) industries to keep a good track about their Production Planning and Control.
Key Responsibilities:
Involved in each phase of the project, taking requirements from client, designing the application by developing mockup screens, developing the application in parallel with testing and deploying it to production.

Project 2:

Project: Product Lifecycle Management(PLM)
Role: Design and Development
Technologies : Angular, Java Script, Asp.Net Core, C#, HTML, CSS.
Description:
Implemented PLM to streamline product development and reduce lead times in the fashion supply chain. Designed and implemented new PLM modules for tech pack management, BOM integration, and sample tracking, enhancing client workflow efficiency. Improved PLM functionality to better meet the product lifecycle needs of fashion industry clients, focusing on efficiency and user experience.
Key Responsibilities:
Involved in each phase of the project, taking requirements from client, designing the application by developing mockup screens, developing the application in parallel with testing and deploying it to production.

SKILL PROFILE

- **Framework:** Asp.Net Core, Ado.Net, Entity Framework
- **Web Technologies:** HTML, CSS, Bootstrap, JavaScript, Angular
- **Programming Langs:** C#, Core Java
- **Database:** SQL Server 2017, 2019
- **OS Known/Worked on**: Windows 10, Windows 11
- **Source Controls:** GitHub, Postman
- **IDE:** Visual Studio code, Visual Studio 2019 & 2022

EDUCATION

- **Bachelor of Engineering** in **Electrical and Electronics Engineering** from Kakatiy Institute of Technology and Science for Women affiliated to JNTUH with aggregate of 70% in 2022**.**
- **Diploma** from Sudheer Reddy College of Engineering and Technology for Women, affiliated to SBTET with aggregate of 87% in 2019**.**
- **SSC** from Kerala High School, affiliated to State Board with aggregate of 8.0 CGPA in 2016.

TRAINING & CERTIFICATIONS

- **Certifications On:**
  - Undergone Nine months training of Full Stack Java in JSPIDERS panjagutta.
  - One month training of MAHINDRA PRIDE CLASS ROOM which skills are help for Employable

STRENGTHS

- Team player Ability to work in a team or as an individual.
- Adaptability to new technologies quickly.
- Strong analytical, problem solving and communication skills.
- Passionate about achieving target within time.

DECLARATION

I hereby declare that all the above given information is true to the best of my knowledge.
